

1. How will our use of the DIBELS® Data System be affected?

- a. UO and Amplify are working closely together to continue providing a high level of service and to ensure your service remains uninterrupted. All active DDS accounts will remain active and in their current state, including all data from past years. You will continue to access and use the account just as you have all year. In addition, many of the staff you've worked with at DDS will be employed by Amplify to ensure a seamless transition.

You can learn more about Amplify on [the Amplify website](#).
